

INGREDIENTS: 100% ORGANIC ALL-NATURAL SCORIA

Directions for Use:

Garden Soil + New Lawns: The desired ratio is 1-part ParaBlend to 8-parts soil (1:8) For raised beds and bulk mixing, add ~65 lbs. per one yard of soil. For traditional gardens or lawn soil prep, incorporate 200 lbs. of Cinderite per 1000 sq. ft. (20 lbs. per 100 sq. ft.)

Perennials and Trees: Top dress 1-2" within the same diameter as the canopy or within a 3' radius from the root flare (approx. 6 lbs. per sq. ft.)

Potted Plants: Use 1 cup of Cinderite ParaBlend per 6" of pot diameter as a top dressing or 1-2 cups per gallon of soil mix.

When To Use: Use anytime of year. For optimum results, use during fall soil preparation.
