Instructions for Use

Please wear gloves and eye protection while handling this product.

1. Use one 50g pouch to treat 4,000 cubic feet. To treat an area larger than 4,000 cubic feet, use additional pouches at equal spacing.
2. Carefully open outer foil packet and remove inner pouch. Do not open inner pouch.
3. Place inner pouch 12-18 inches above plant canopy by hanging via hole in pouch.
4. Inner pouch is effective for up to 30 days of use.
5. Avoid direct exposure to water.
6. Please dispose of packet in accordance with local regulations.

Please refer to product safety data sheet for product safety information.
