

GreenMatch[®] EX

Burndown Herbicide

 **FOR ORGANIC PRODUCTION**

- For Control of Grasses and Broadleaf Weeds in Crop and Non Crop Areas
- CONCENTRATED EMULSION
- NO REENTRY INTERVAL
- Ingredients in this product meet the requirements of the USDA National Organic Program

Active Ingredient: Lemon grass oil 50%
 Other Ingredients:* 50%
 Total:..... 100%
 * Water, Corn Oil, Glycerol Esters, Potassium Oleate and Lecithin

KEEP OUT OF REACH OF CHILDREN CAUTION

See Inside Booklet for Additional Precautionary Statements and directions for use.

This product has not been registered by the US Environmental Protection Agency. Marrone Organic Innovations represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide, and Rodenticide Act.

DIRECTIONS FOR USE

Use only according to label instructions. Read the entire label before using this product.

GreenMatch[®] EX is intended for non-selective weed control in and around all crop and noncrop areas. Only protected handlers may be in the application area. Do not apply this product in a way that will contact workers or other persons either directly or through drift. Keep unprotected persons out of treated areas until sprays have dried. To prevent crop damage, apply GreenMatch EX directly on weeds.

GENERAL INFORMATION: GreenMatch EX is a contact, non-selective, broad spectrum, foliar herbicide. This product will only control actively growing emerged green vegetation. It controls both annual and perennial broadleaf and grassy weeds. The degree of control is less when the plants are mature or biennial/perennial types. The product does not translocate. It will affect only those portions of plants that are coated with the spray solution. GreenMatch EX may DAMAGE CROPS; therefore directed spray on weeds or application with hooded spray equipment is recommended to prevent the spray from contacting crop.

MIXING AND APPLICATION INSTRUCTIONS: SHAKE WELL BEFORE USING. Fill the spray tank 1/2 full and start the recirculation or agitation system. Add adjuvant at label rate in the tank before adding GreenMatch EX. Add the desired amount of GreenMatch EX and the remaining amount of water and allow to mix thoroughly. Apply spray solution within four hours of mixing.

Apply spray solution in properly maintained and calibrated equipment capable of delivering the desired volumes. Always clean tank, pump and lines thoroughly with water and soap after each use.

Coverage is very important. The better the foliar coverage, the better the product performance. Do not allow spray solution to drip, splash or drift onto desirable vegetation.

The product is most effective on weeds less than six inches in height. Multiple applications may be necessary for effective control of larger weeds. Higher water volumes and higher rate will be needed for larger weeds. Complete coverage is essential for control. Leaf damage should be visible on most weeds within hours of application. Cool weather may slow the activity of this product.

Dilution rate	Gallons of GreenMatch [®] EX to Achieve Desired Application Rate		
	35 gallons of water spray	70 gallons of water spray	100 gallons of water spray
7%	--	-	7
10%	--	7	10
15%	5.25	10.5	15

Repeat treatments will be necessary for new plants emerging from seed or for re-growth of treated vegetation. Use of an adjuvant (spreader and/or penetrant) will enhance product performance and is highly recommended for best control.

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 – 20 minutes. • Call a poison control center or doctor for treatment advice.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
HOTLINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid contact with eyes, skin, and clothing. Avoid breathing vapors or spray mist. Harmful if swallowed. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.
